Collection Futura 2018-2021

Collection Futura is an inspirational range of special powder coatings for use on exterior architectural metal components, and a favorite with architects for over 20 years!

We work with leading trend, brand-style and innovation consultants, PeclersParis, to help us forecast, create and anticipate trends in color and texture, bringing fashion to powder coatings.

Collection Futura 2018-2021 marries the latest in global design trends with the ultimate in superdurable protection, creating a unique range of special effect powder coatings which meet the exterior weathering requirements of Qualicoat GSB, AAMA and BS.
